MINUTES

OF THE

CITY COUNCIL

For the Year 1922

Council Chamber,

Kingston, Jan. 9th, 1922.

The inaugural meeting of the Council of the Corporation of the City of Kingston for the year 1922 was held in the Council Chamber at 11 o'clock to-day.

J. M. Farrell, Police Magistrate, administered the declaration of office to the Mayor-elect, Samuel Stewart Corbett, who then took his seat and administered the declaration of office to the Aldermen-elect as follows:

Sydenham Ward—George Bawden, Fergus Joseph O'Connor, Henry Ford Richardson.

Ontario Ward—Christopher James Graham, John Edwin Johnston, Robert Edwin Kent.

St. Lawrence Ward—Isaac Cohen, Harvey James Milne, William Palmer Peters.

Cataraqui Ward—Thomas Bryant Angrove, William James Driscoll, Enoch Godwin, jr.

Frontenac Ward—William Holder, Howard Kelly, William Patterson.

Rideau Ward—George Laturney, William Arthur Marcelis, Clifford Charles Nash.

Victoria Ward—Percy Bloor Chown, William McCartney, Thomas Henry Sargent.

The City Clerk called the roll, the following members being present:

Mayor Corbett, Ald. Angrove, Bawden, Chown, Cohen, Driscoll, Godwin, Graham, Holder, Johnston, Kelly, Kent, Laturney, Marcelis, Milne, McCartney, Nash, O'Connor, Patterson, Peters, Richardson, Sargent.

Following is the inaugural address of Mayor-elect Corbett:

To the Members of Council of the City of Kingston:—

Gentlemen,—Please accept my hearty congratulations to all on your election as aldermen of this city. I especially welcome those who come to our Board for the first time, and also those who are returning. The position which you have just received from the ratepayers carries with it a very heavy responsibility. The taxpayers have said "We select you to carry on our municipal business for the year 1922." They have also said that we are now passing through very strenuous and hard times, the reconstruction period, with so many of our industrial institutions closed, leaving such a large number unemployed, and that we expect you to put forward an extra effort to meet these conditions as they are with the very best judgment you have, keeping in mind that during the war period a very heavy debt was incurred, and that you are to practise economy in handling our city's money.

Our city is placed in a very trying position financially. We have our expenditures increasing in a much greater proportion than the city's growth, with the result that we have to increase our tax rate to pay our way. This increase of taxes has a very depressing effect on our citizens, and I believe that

it was this fact that caused the adverse vote on our money by-laws. If our growth increased we would have increased assessment, and if this was large enough we could lower the rate of taxation. How then can this be brought about? My view is that it can best be done by increasing the number of our industries. I believe that because of this situation the Industries Committee is the most important of the Council at the present time, and I hope you will select your strongest men for it. If we can increase our industries we increase the number of jobs or places to work, which increases the pay envelopes and the money circulated in the city. People will come to the city, which increases the population, which in turn increases the number of houses to live in, and real estate, which increases the amount of taxes we can collect, which means city growth. If during the year any alderman or citizen can show how our growth and prosperity can be furthered more in any other manner I will gladly hear him. One of the important measures which this committee will have is the consideration of the appointment of an Industrial Commissioner. I think it would be advisable for the Industrial Committee of the Council to amalgamate with the Industrial Committee of the Board of Trade as formerly, he chairman of each forming an executive.

The question asked the greatest number of times by the ratepayer is, "Where does our city money go to?" Last year the total taxes collected was divided into these percentages: For the debt arrangement loan rate, 4%, and for the annual payment on account of loan and bonus debenture not included in this, 7½%; schools, 37%; Sinking Fund for the debentures re the several local improvements, 8½%, and for general purposes and expenditures, 43%. From this it will be seen that over half our expenditures are uncontrollable, and that the schools are given nearly as much as the city has left for general purposes, and it also clearly points out to all the spending departments of the corporation to see to it that full value is obtained for all our expenditures.

Harbor Improvement.

To my mind the most important proposition before this city at the present time is the harbor improvement to make Kingston the deep water terminus of the Great Lakes. All citizens should combine their energies to further this project; it is not often that a scheme of such large proportions comes in view for a municipality, and it will be a great day for this city

when the money is appropriated to construct these works. I am willing to do what I can, and ask every one to help.

Relief for the Unemployed and Needy.

I offer congratulations to the Kiwanis Club for raising such a handsome sum of money to take care of the unemployed and needy during the winter months. This Council has reason to be very grateful, as it has relieved us of a very heavy burden, and the taxpayer from this expenditure. With ex-Mayor Nickle as chairman of the committee handling this fund, the success of the undertaking is assured.

Paving.

A large amount of paving was done last year, and I think it would be wise to shorten the area this year. These pavements are very expensive, and add greatly to our debt. After Division street and Brock street from King to Ontario street and Ontario street from Brock to William, are paved, I think that all others should be done on petition.

Memorial Hall.

His Excellency the Governor-General has dedicated our beautiful Memorial Hall. To ex-Mayor Nickle and his committee last year we give the credit for having the vision and bringing about such a suitable memorial to perpetuate the names and patriotism of our own soldiers, and it is praise enough for them when His Excellency said that it was the most beautiful memorial he had seen, and that the dedication was the most solemn and dignified he had attended in Canada.

Police Department.

Forutnately our police have been successful in apprehending the bandits who have been terrorizing this city and country districts. I expect that the criminal depredations will slacken, and that the Police Commissioners will be able to lessen the expenditure in this department, which was greatly increased last year owing to the conditions of criminal violence which prevailed.

New Hotel.

I am very much pleased to learn that some of our enterprising citizens are still working hard at the new hotel propo-

sition, and have got matters under way to the extent that a new hotel is assured. I am sure that the citizens will all agree that a new hotel for Kingston is a very desirable and much needed condition. The commercial travellers and others have been calling for this for years, and a great deal of money will be left in Kingston when we have suitable accommodation for tourists and guests. I understand that later this committee will have a proposition to lay before the Council and also the ratepayers which I hope will be favorably received.

Municipal business is not like a commercial or any other business. We cannot buy and sell at a profit, or buy in a cheap market and sell in a dear one. The Standing Committees in all Departments will be provided with a reasonable sum to take care of their wants, and their recommendations for spending these sums will be scrutinized as they are presented. I would like it to be plainly understood that when the Budget is struck and each committee and department has been provided with the amount to carry on during the year that they must live within this appropriation. This is not only statutory regulation but is sound municipal business, and will not be departed from excepting in a case of extreme emergency.

I regret that so many of the old faces are missing from the Council, as my relations with them were always very pleasant.

To conduct the city's business this year is not the work of the Mayor only, but of every one connected with it, and I want the co-operation of the aldermen and officials, and I earnestly solicit their support so that when the year is ended we and the citizens will be satisfied that we have given them a year of honest and progressive administration.

Moved by Ald. Kent, seconded by Ald. Peters (1) that the Mayor's inaugural address be referred to the different incoming Standing Committees.—Carried.

Fire and Light.

Ald. Chown presented report No. 13 from the Committee on Fire and Light as follows:

Kingston, Feb. 7th, 1922.

To the Mayor and Council of the City of Kingston:

Gentlemen,—The Committee on Fire and Light begs leave to report and recommend as follows:

1. That the tender of Morris Yampolsky to furnish 16 uniforms at $33.40 each and 3 uniforms for officers at $43.60 be accepted, being the lowest.

2. That the old mare "Jess," at the Upper Station, be destroyed.

3. Replying to Motion 12, Minutes of Council, Jan. 30th, there are two questions involved, 1st, the advisability of having the steamer engine attend all fires; 2nd, giving in detail the extra cost incurred. We will answer the second question first.

From the report of the Chief the cost of having the steamer engine attend all fires is as follows:

Two drivers and one engineer extra will be required.

For a driver, salary 365 days at $2.75	$1003 00
One uniform suit of clothing	39 65
One pair winter trousers	9 00
One pea jacket	27 00
Summer cap, winter cap, straw hat and woollen mitts	7 50
One suit overalls and smock	4 50
One souwester	70
Waterproof coat	12 00
Rubber boots	7 50
Laundry and toilet service	5 00
Pillow slips, $1.20; bed sheets, $5.10; blankets, $15	21 30
Bed spread	4 50
One mattress for extra bed	13 00
	$1154 65
For two drivers	2309 30
Engineer's salary	1128 65
	$3437 95
Kindling, coal, oils, chamois, sponges and other items	50 00
Third horse for 4 months	85 00
	$3572 95

The cost of having the steamer as at present ready to answer all calls is as follows:

Salary of one engineer 365 days at $3.13½	1140 62
Uniform, clothing, etc.	77 90
Maintenance of one team of horses on 1921 basis	511 13
Pea coal for hot water heater attached to steamer	75 00
Coal and kindling wood	5 00
Oils, grease, chamois, sponges, repairs, etc.	9 40
	$1819 05

Total cost of having this steamer answer all calls will be $5392 00

In order to answer the 1st question of the motion we submit the following detail:

To purchase an 800 gallon triple combination pumper would cost $16,000, which would make an annual expenditure as follows:

One man extra	$1218 00
Running expenses	200 00
	$1418 00

If the purchase price ($16,000) was spread over a period of twenty years the annual cost would be as follows:

Interest and sinking fund	$1554 50
One man extra	1218 00
Running expenses	200 00
	$2972 50

We are of the opinion that the last method named above will be a great deal more efficient for fire fighting purposes in every way, and we consider it inadvisable to have the steamer engine attend all fires, and that it is advisable to purchase an 800 gallon triple combination pumper, because of the difference in price and efficiency shown in the detail given above, and that the Finance Committee provide the funds.

Civic Budget, 1922.

Ald. Kent presented the report from the Committee on Finance and Accounts containing the estimates for the year 1922 as follows:

Committee Rooms, City Hall,

Kingston, March 24, 1922.

The Committee on Finance and Accounts, in submitting the estimates for the year 1922, beg leave to report as follows:

The bonded debt of the City to 31st December, 1921, is $2,127,344 46, made up as follows:

Water Works		$ 100,900 00
Light Works		563,764 35
SCHOOLS:—		
Public	$252,743 07	
High	60,100 00	
		312,843 07
LOCAL IMPROVEMENTS:—		
Corporation's portion	$370,023 97	
Owners' portion	341,564 99	
		711,588 96
General Purposes		438,248 08
		$2,127,344 46

The above debt will be increased this year by authorized Debenture issues amounting to ..... $ 278,000 00

The amount of the Sinking Fund is $453,290.17, and of this amount $397,413.93 is invested in Government and Municipal Debentures and $55,876.24 is on deposit in the Bank.

The amount to be levied for the Sinking Funds this year is $69,983.54 and the parties specially benefited paying $31,812.88 and the city generally paying $38,170.66.

Your Committee has been obliged to provide over $8,000 to take care of the situation caused by unemployment, and have reduced the estimates of the Board of Education by $3,000, feeling that expenditures such as beautifying grounds, etc., can be deferred until conditions are more normal. Your Committee trusts that hte Board of Education will co-operate with the Council in an earnest endeavor to confine the expenditures this year to absolute necessities.

With a small additional revenue from increased assessment and last year's surplus of $4,900, your committee has been able to grant the various spending committees about the same appropriation as was allowed last year without increasing the rate of taxation.

Your committee recommends that a rate of 22 36-100 mills for general purposes and 12.64-100 mills for educational purposes, making in all 35 mills on the dollar, be placed on this year's ordinary assessment, and

also that a rate of 1 mill on the dollar for the collection and disposal of garbage be imposed on the assessment liable therefor.

WHEREAS in the opinion of two-thirds of all the members of the council of the corporation of the city of Kingston it was desirable in the public interest to construct an asphalt pavement as a local improvement on the Market Square.

AND WHEREAS the said pavement was duly constructed and temporary advances were obtained to meet the cost thereof, and a report has been made thereupon showing that said work has been fully completed, and it has been certified that the period of ten years is the probable life of the said work,

AND WHEREAS the total cost of the said improvement is $8,589.03, and that is the Corporation's portion of such cost.

AND WHEREAS the sum of $8,589.03 being the total cost of all the said works is the amount of the debt to be created by this by-law, and for the purpose of re-paying the said temporary advances it is expedient to raise the said sum of $8,589.03 by the issue of debentures of the said city of Kingston, the principal to be payable in ten years from the first day of January, 1922, as hereinafter provided.

AND WHEREAS it will require the sum of $1,187.86 raised annually for a period of ten years to pay the sum of $8,589.03, and interest at the rate of 5½% per annum, payable half-yearly.

AND WHEREAS the whole rateable property of the said city of Kingston according to the last revised assessment roll is the sum of $16,088,200, and the amount of the existing deben-

ture debt of the said city, exclusive of local improvement debts, secured by special acts, rates or assessments, is the sum of $1,785,779.47, of which neither principal nor interest is in arrear.

3. The said debt shall be payable in ten years from the first day of January, 1922, at the office of the Treasurer of the said city of Kingston, in the said city.

4. The said debentures shall bear the same date and shall be issued within two years after the day on which this by-law is passed.

5. The following is a communication from the Board of Management, Kingston General Hospital:

Kingston, Aug. 14th, 1922.

S. S. Corbett, Esq.,
Mayor,
Kingston, Ont.

Dear Mr. Corbett:

Confirming our conversation with you on Saturday, permit me to say that the understanding of the Committee of Management of the Kingston Hospital is that the agreement now existing absolving the hospital from receiving smallpox patients is not to be considered effective when the new Isolation Hospital is erected, and that in so far as the capacity and operation of the new Isolation Hospital permits, smallpox patients will be received for treatment on the same basis as those suffering from other communicable diseases. As you are aware, the hospital during the past few years has been receiving for treatment smallpox patients. It will be obvious to the members of Council that if the hospital is to be used as an Isolation Hospital, we could not, in the event of there being a demand

for the treatment of other communicable diseases, exclude them merely to accept smallpox patients. It is also equally manifest that the hospital authorities could not agree, beyond the capacity of the isolation building, to take charge of a smallpox epidemic. Like yourselves, we are trustees for the people, and our desire is, to the utmost of our ability, to discharge the obligations thrown upon us through the positions we occupy.

I am, yours sincerely,

(Signed) R. E. KENT,
Chairman Board of Management, Kingston General Hospital.

Kingston, Dec. 1st, 1922.

To the Mayor and Council of the City of Kingston:

Gentlemen,—The Committee on Finance and Accounts begs leave to report and recommend as follows:

1. That the following accounts in connection with reception to Queen's rugby team be paid:

2. That the sum of $200 be appropriated to pay the expenses of a dog catcher, and that the Mayor, Chief of Police and Assessment Commissioner be appointed to make arrangements in connection with the same.

3. That the Board of Works receive a further appropriation of $1,000.

4. That in regard to the relief of the Northern Ontario fire sufferers it is the opinion of this committee that the proposition presented to this city by the Ontario Government will not bring satisfactory results because if left in the manner it is at present some municipalities will contribute and others will not, and it is thought advisable that the Ontario Legislature should ascertain the assessment of the province and strike a rate which will give the one million dollars required, then pass an Act making it compulsory for the municipalities to pay this levy. We believe in the cause, and are willing to pay our share, but we also believe that the contribution should be made from Ontario as a whole, and until this can be arranged that the Provincial Government advance the money, as it is being urgently needed.

5. That whereas the G. W. V. A. has offered $160, part of the proceeds of Poppy Day, for civic relief work, that this amount be placed to the credit of the Poor Relief Association, and that a vote of thanks be sent to the G. W. V. A. for this very kindly and considerate act.

Industries

Ald. Peters presented report No. 76 from the Committee on Industries as follows:

Kingston, Dec. 11th, 1922.

To the Mayor and Council of the City of Kingston:

Gentlemen,—The Committee on Industries begs leave to report and recommend as follows:

1. That during the year several prospects for industries were received and considered, and that the following have been secured and are now operating in the city:

(a) Stanley & Aylward Co., Ltd. This company located in the two upper flats in the Cereal Building. In order to get them to locate here it was necessary to sell $20,000 worth of stock, and this amount was obtained by the committee and

assistance of friends. The company had a meeting in the Board of Trade rooms on Thursday last, with a very good preliminary report, and stated that they were well satisfied with conditions here. The Kingston preferred shareholders nominated Mr. J. M. Campbell and Mr. Elmer Davis to represent them on the Board of Directors, and Mr. R. Easton Burns was appointed auditor. According to the report of Mr. Stanley, who has charge of the salesmen, there is every reason to believe that this company will succeed and will expand. This company was located without any expense to the ratepayers whatever, and are employing over thirty hands.

(b) Watson-Litton Co. During the summer this company built that large factory on Rideau street, which is now completed. The railway siding is also completed, and they are moving in their machinery, and will start operations right away. In consultation with Mr. Watson and Mr. Litton it was learned that they already have large orders to fill, and they are very optimistic as to the future of the company. They will employ about fifty men to start, and this number will increase from time to time.

(c) Maclean's Packing Co., Ltd. This company is composed of Kingston men with one exception, who are thoroughly conversant with every detail of the business, and the people of Kingston have had a chance to see what remarkably fine products they are turning out. They have a unique location, being well situated geographically, and in the centre of a community where the best of materials for making their bacon, etc., can be had, and we predict for them uninterrupted success. This factory started without any expense to the ratepayers.

(d) Coca Cola. The Coca Cola people bought the old Rideau street school building, and installed a plant for making Coca Cola. They employ ten people. This industrious, though small, plant has been obtained without any expense to the ratepayers of the city.

(e) Collie's Limited. Collie's Limited have purchased the building which was erected by the Frontenac Moulding and Glass Co., and have installed an up-to-date set of machinery for the purpose of manufacturing woollen cloths of different types. This factory has been obtained without expense to the ratepayers, and will start up after the New Year with fifty hands, which number will ultimately be increased to one hundred and twenty-five.

(f) A. J. LaFay is the inventor of, and has patented the hydro-carbon gas burner, and has been induced to locate in Kingston and manufacture the same. He has started in in a small way, and at present is only employing five people. It is anticipated that more will be heard regarding this next year.

2. In referring to these industries obtained without expense to the ratepayers means that no bonus or other inducement has been given to get them to locate here. The Industries Committee had an appropriation of $2,000, and has a balance left over of between five and six hundred dollars.

3. The ratepayers having voted favorably upon the purchase of the Murdock farm places at the disposal of the incoming Industries Committee a splendid tract of land for industrial sites, which are of easy access for railway sidings.

4. Your committee had in co-operation with them the committee from the Board of Trade, the chairman of the City Council committee, and the President of the Board of Trade, forming the Executive, and we recommend this method to next year's committee.

Respectfully submitted,
